

*DzEta is NiCo's solo ambient post-rock music project. Inspired by instrumental music, he creates organic tracks with both rock and electro sounds, which he stacks to create a solid foundation for inspired airy melodies. Playing both guitar and effects, he mixes textures for unique hazy atmospheres that reveal themselves towards the bright. He draws his influences from the works of artists such as Ez3kiel, Mogwai, Slowdive or The Cure.*

The press is enthusiastic about the DzEta project, both locally and abroad.

Below, some quotes from articles published in the press.

**Review by In Your Ears (Italia):**

*Immersion in the landscape is one of the effects of listening to DzEta's songs: they are virtual visions, but with real sensations, thanks to a particular approach to the songs: a familiar form, halfway between post rock and shoegaze. Composed entirely alone, this EP plays with the melodies by drawing landscapes along hypothetical and hypnotic winter roads where we follow a flight of birds over mountains and still lifes.*

**Le Cargo :** Superb clip in the image of the music of Dzeta. Soaring. To be taken like a breath of fresh air, as precious as a walk by the ocean.

**Mes Enceintes font défaut (Canada) :** "Let's take our dose of post-rock of the week with the solo project DzEta coming from Limoges. The artist has fun with the soaring and more composed side of this musical genre and he dazzles us with the beauty of his riffs. It's the perfect opportunity to get out of our pandemic routine to imagine grandiloquent scenes on the sumptuous soundscapes that he offers us."
